

ANTI-IMPERFECTION EYE THERAPY WITH GROWTH FACTOR

What Is It

A highly concentrated anti-wrinkle eye cream formulated with collagen and elastin to battle against the four signs of aging eyes: fine lines, wrinkles, dark circles and puffiness. Incorporating cutting edge science with naturally derived ingredients and century-old methods, this third and final step in the Divine Age Guardian System gives eyes a youthful, luminous and radiant appearance. Non-comedogenic. Fragrance-free.

Key Features

- Stimulates Collagen and Elastin production
- Reduces fine lines and wrinkles
- Increases skin elasticity
- Diminishes dark under eye circles
- Tran-dermal technology to replenish moisture
- Antioxidant-rich protection against free radicals

Key Ingredients

- Epidermal Growth Factor (EGF): Stimulates cell rejuvenation, noticeably diminishing the length and depth of fine lines, wrinkles and crow's feet.
- Matrixyl (Palmitoyl Pentapeptide-4): Increases overall Collagen production by up to 117%. Reduces eye puffiness by strengthening the elasticity of the eye skin area.
- Argireline (Acetyl Hexapeptide): Helps to block the nerve signals that control the contraction of facial muscles. Helps expressive wrinkles to become more resilient to the aging process.
- Retinol: Reduces fine lines and dark under eye circles, protecting skin against the ravages of day to day environmental damage.
- Algae Extract: Active substance used to normalize skin's moisture content and provide suppleness to the epidermis. Used to add vital oligo-elements and increase surface hydration.

Directions

Apply a pea-sized amount to the over and under eye area with gentle and smooth circular movements. Wait five minutes for absorption. For best results, use in conjunction with Divine Age Guardian Serum with Growth Factor and Divine Age Guardian Cream with Growth Factor. Apply twice a day or as directed by physician.
