

DIVINE BRIGHTENING CREAM WITH GIGAWHITE

What Is It

This skin brightening cream unites the power of Gigawhite and 3-O-Ethyl Ascorbic Acid to help inhibit the enzyme responsible for the production of melanin and repair the appearance of pigments, dullness and uneven skin tone. Combined with a concentrated extract of Algae to increase oxygen in skin and boost collagen production, the skin appears denser, brighter and more evenly toned. Fragrance-free.

Key Features

- Reduces the color intensity of age spots
- Improves skin tone and elasticity
- Hinders the growth of tyrosine and the activity level of melanin
- Retains moisture on the skin
- Diminishes fine lines and wrinkles
- Formula is Hydroquinone-free

Key Ingredients

- **Gigawhite**: A skin brightening complex of botanical origin. Developed from Alpine plants, Gigawhite at a 5% concentration has been shown to brighten and even skin tone. Additionally in a 12 week study, it was shown to reduce the color intensity of age spots.
- **3-O-Ethyl Ascorbic Acid**: Helps inhibit dermatitis and improve the skin color and elasticity.
- **Tranexamic Acid**: Reduce hyperpigmentation by inhibiting the growth of tyrosine and the activity level of melanin.
- **Sodium Hyaluronate**: Capable of holding moisture 1000 times its weight. Used in rejuvenating skin products and in injections to puff out wrinkles.
- **Algae Extract**: Active substance used to normalize moisture content and provide suppleness to the epidermis. Used to add vital oligo-elements and increase surface hydration.

Directions

Apply a small amount to the face and neck with gentle and smooth circular movements. Wait five minutes for absorption. For best results, use after Divine Brightening Serum with Gigawhite, and follow with Anti-Imperfection Eye Therapy with Growth Factor. Apply twice a day or as directed by physician.
