

## DIVINE BRIGHTENING SERUM WITH GIGAWHITE

### **What Is It**

Illuminate the skin with a potent dose of Gigawhite and Tranexamic Acid. This concentrated skin brightener helps fight tyrosinase, a primary cause of spot formation and discoloration, and also protects against sun damage that threatens to hinder the glow of the skin. This results in rejuvenated, restored and refreshed skin clarity for a more luminous, younger looking complexion. Fragrance-free.

### **Key Features**

- Reduces the color intensity of age spots
- Improves skin tone and elasticity
- Hinders the growth of tyrosine and the activity level of melanin
- Retains moisture on the skin
- Diminishes fine lines and wrinkles
- Formula is Hydroquinone-free

### **Key Ingredients**

- Gigawhite: A skin brightening complex of botanical origin. Developed from Alpine plants, Gigawhite at a 5% concentration has been shown to brighten and even skin tone. Additionally in a 12 week study, it was shown to reduce the color intensity of age spots.
- 3-O-Ethyl Ascorbic Acid: Helps inhibit dermatitis and improve the skin color and elasticity.
- Tranexamic Acid: Reduces hyperpigmentation by inhibiting the growth of tyrosine and the activity level of melanin.
- Sodium Hyaluronate: Capable of holding moisture 1000 times its weight. Used in rejuvenating skin products and in injections to puff out wrinkles.
- Niacinamide/Vitamin B3: Helps strengthen cellular bonds and tighten skin.

### **Directions**

Apply 3-5 drops to freshly cleansed face and neck. Massage gently to ensure absorption. For best results, apply Divine Brightening Cream with Gigawhite to lock in the serum, and follow with Anti-Imperfection Eye Therapy with Growth Factor. Apply twice a day or as directed by physician.
