

## ULTRA-LIGHT SUNSCREEN SPF 40 WITH TITANIUM DIOXIDE

### **What Is It**

A non-comedogenic, broad-spectrum, physical sunscreen formulated with naturally occurring Titanium Dioxide and cellular-protecting plant extracts. It offers skin protection from UV rays that contribute to skin damage and premature aging. Utilizing an exclusive ultra-light technology, it glides on smoothly; leaving the skin with a soft, non-greasy finish. Perfect to wear alone, over daily moisturizer or as an invisible makeup primer. Fragrance-free.

### **Key Features**

- Protects skin against collagen damage
- Help prevents the formation of lines and wrinkles
- Enhances natural skin tone and boosts radiance
- Weightless texture
- Non-greasy finish
- Formula is non-comedogenic

### **Key Ingredients**

- Titanium Dioxide: An earth mineral used in sunscreens. Capable of creating a physical barrier to block both UVA and UVB.
- Ginkgo Biloba Leaf Extract: An herb used as an anti-inflammatory, antioxidant and anti-irritant.
- Ascorbyl Tetraisopalmitate: A form of Vitamin C Ester. Works as a powerful antioxidant to prevent cellular aging by inhibiting the cross-linking collagen, oxidation of proteins and lipid percutaneous absorption and stability.
- Prunus Yedoensis Leaf Extract: Has positive effects on improvement of noticeable pores, and improvement of skin elasticity.

### **Directions**

Apply liberally and uniformly 30 minutes prior to UV exposure. Reapply to skin as needed.
